## Office of the State Auditor Completes 2019 Federal Funds Compliance Audit *\$4.930 Billion in Federal Funds Expended During Fiscal Year 2019*

### Salt Lake City, UTAH –

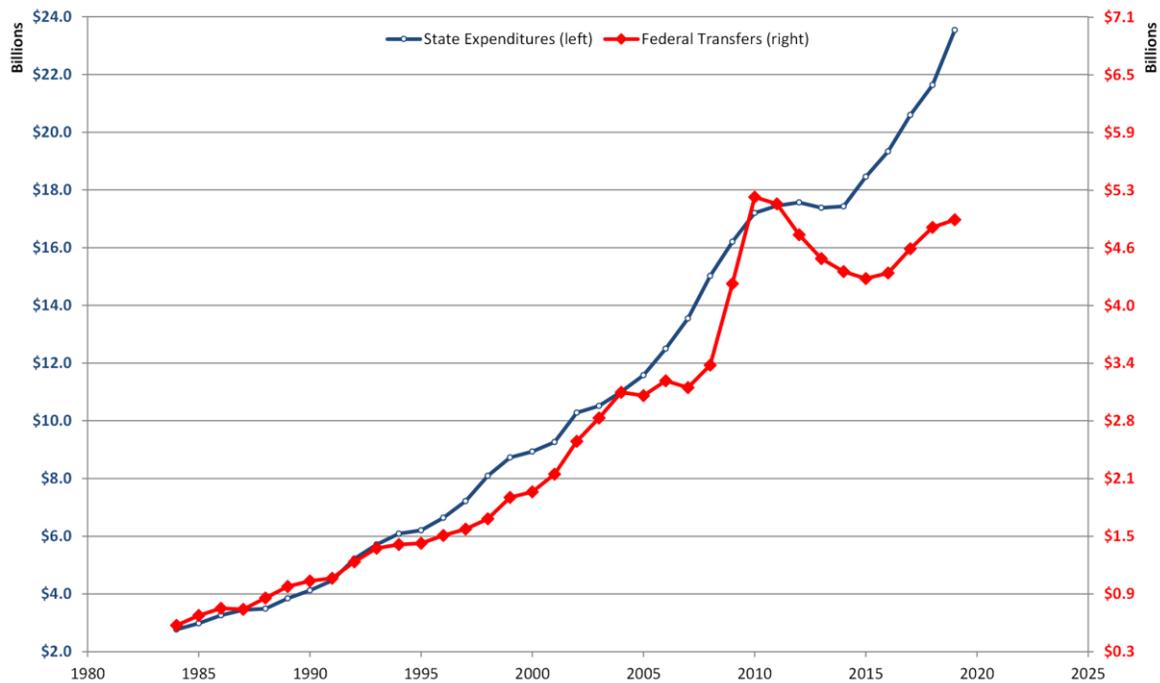

The Office of the State Auditor (Office) today released its *Single Audit Report* of the 2019 expenditures of federal funds by the State of Utah (State). The report documents the State's compliance with federal regulations governing the use of federal funds. The \$4.930 billion in federal funds spent in fiscal year 2019 represents 20.9% of the State's total fiscal year 2019 expenditures of \$23.542 billion. Federal funds are a major source of funding for the State of Utah. The Office has also distilled the spending information into two simple charts. The first graph shows the historical percentage of Utah expenditures from federal transfers. The second graph illustrates the historical growth of total state expenditures and of federal transfers. State expenditures are shown in blue on the left axis of the graph in billions of dollars, and federal transfers received by the State are shown in red on the right axis.
