David Stringfellow is the Chief Economist in the Office of the Utah State Auditor. He focuses on data analytics, performance, local government, build models, write, analyze, to ensure public entities (governments, universities, schools) are realistic, effective, and efficient.

Prior to this appointment, David worked as a Senior Economist in Utah Governor's Office. He produced the executive forecast for Utah's economy and the corresponding revenue forecast used to set Utah's budget. He was also the principal tax expert modeling reform for two governors.

David also worked as a Statistician for the United States Census Bureau in Washington D.C. where he produced the official estimates for service sectors of the US economy totaling roughly \$1 trillion.

David attended Brigham Young University, the University of Maryland, and the University of Utah. He has degrees in Economics and Public Policy. He taught applied statistics to graduate students at the University of Utah.
