

Exploring your LEA's spending and performance dashboards

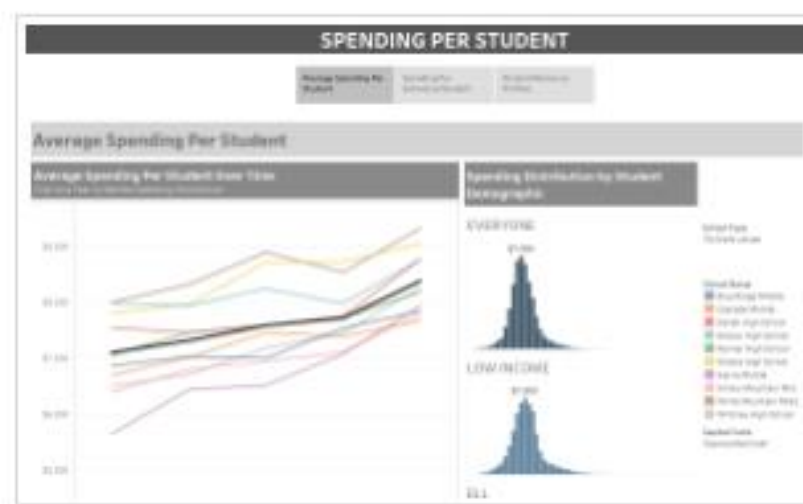

Project KIDS

Tableau dashboards are comprised of 'Views' – select any View to explore spending and performance.

Spending By School

Spending Per Student

Be sure to make use of drop-down navigation menus to explore different ways to visualize the data.

Selecting elements of the View will often add to the View or display more detailed information:

The Methodology View displays information about Project KIDS' analytic methodology:

You can leave comments for the Project KIDS team and for your own team members:

Tagging people sends them an email notification and can be used to ask for data clarification or note discrepancies:
