Hi Collette,

Upon a closer reading of your request, Auditor Dougall would like to request some clarification on part of your request. When you say you would like "All communications, including emails and attachments, between Auditor Dougal and ...Any individual using the following email domain: @utah.gov," that would generate tens of thousands of emails. That would make this an excessive request, and very difficult to fulfill in any amount of time.

Is there a specific @utah.gov user that you wish to target, or is the part of your request regarding keywords an addition in search parameters? Or do you wish to exclude that domain for the sake of expediency?

Please let me know what you'd prefer. If you wish to discuss this further over the phone, my personal line is 801-538-1363.

Thank you,
